ET Music Player Pro.V2019.4.5 (Paid) (Latest)

More than ever these days, a cross hatch generator is absolutely essential to TV engineers, etc. It is the only accurate way to align all three guns in colour TV. The proven reliability, small size, easy operation and stability of this truly formed instrument is such that we are offering it once again, but this time, where stocks have been sold, it is not likely that supplies will be available again at anywhere near present prices. With improvements incorporated – plug-in I.C.s for example – it is going to be wanted more than ever. Many thousands are in regular use by TV renters and suppliers, etc. As this Generator is a VIDEO FEED UNIT and NOT R.F., it can be used anywhere overseas without having to worry about frequency matching. Operates from its own self-contained standard batteries.

LIMITED STOCKS – SO ORDER PROMPTLY

In kit form with instructions. Inc. V.A.T. **£11.50**

Ready built and tested (less batts) but inc. V.A.T. **£13.95**
